Class of instrument	Shares and Depository Receipts
MiFID II Top 5 Venue Reporting Commentary	The Markets in Financial Instruments Directive - MiFID II mandates that investment firms, as part of their best execution obligations, report their top five venues for all trading on behalf of clients. Firms are required to make an annual public disclosure detailing these order routing practices for retail and professional clients across all asset classes.
Explanation of execution factors	<p>Over the course of the reporting period, in this instrument class BluOr Bank AS has only undertaken client orders on an agency basis with third party brokers. This business has been conducted via four third party equity brokers. BluOr Bank AS front office staff have used these brokers to direct client orders to the appropriate broker and markets, to achieve the best possible outcome for each transaction.</p> <p>The following relative importance has been given to the factors that are relevant to broker selection:</p> <ol style="list-style-type: none"> 1. Geographic expertise, market coverage, trading solution; 2. Other factors – including, but not limited to the speed of execution, the cost of execution, the ability to handle certain order sizes and the specific nature of the order. <p>As the trades in this instrument class were all executed by third party brokers, except trades on trading venues, where BluOr Bank AS is the direct member, the specific factors affecting execution, eg price, cost, speed, were under the control of the brokers and not under BluOr Bank AS's immediate influence. BluOr Bank AS determines which broker to use at the point of execution based on their judgment as to which broker will be able to execute the trade most effectively, and in accordance with Best Execution, taking into account these specific execution factors.</p>
Description of close links	BluOr Bank AS is not affiliated with any execution venue/broker used to execute client orders.
Description of specific arrangements	In this instrument class, the only payment arrangements between BluOr Bank AS and brokers have been those covering fee payments made by BluOr Bank AS to the brokers for brokerage trades transacted on behalf of BluOr Bank AS's clients. BluOr Bank AS has neither given nor received any discounts, rebates or non-monetary benefits to or from these execution venues/brokers during the reporting period.
Explanation of factors that led to change	In this instrument class, BluOr Bank AS has only traded client transactions on an agency basis with external brokers. There has been a change in trading venues during 2022, i.e. BluOr Bank AS halted transactions with Sova Capital Limited due to court action taken with regard to this broker in March 2022.
Explanation of differences according to client categorisation	In this instrument class, there has been no client differentiation with respect to the routing of client orders to third party brokers. BluOr Bank AS has offered the same arrangements to all clients with respect to equity orders during the reporting period.
Explanation of other criteria precedence	In this instrument class, no criteria were given precedence other than as specified above (see 'Explanation of execution factors'), to deliver the best possible result in terms of the total consideration to the client, during the reporting period.
Explanation of data or tools usage	In this instrument class, BluOr Bank AS used publicly available market data to compare and to monitor the quality of execution achieved by third party brokers, during the reporting period.

MiFID II Top 5 Venue Reporting Commentary	The Markets in Financial Instruments Directive - MiFID II mandates that investment firms, as part of their best execution obligations, report their top five venues for all trading on behalf of clients. Firms are required to make an annual public disclosure detailing these order routing practices for retail and professional clients across all asset classes.
Explanation of execution factors	<p>Over the course of the reporting period, in this instrument class BluOr Bank AS mainly has executed client orders on a principal basis with the broker or directly through multilateral trading facilities or trading venues. In certain cases BluOr Bank AS may act as an execution venue. BluOr Bank AS front office staff have used these brokers to achieve the best possible outcome for each transaction. BluOr Bank AS is direct member of the NASDAQ Riga, NASDAQ Vilnius stock exchanges and Bloomberg Trading Facility Europe.</p> <p>The following relative importance has been given to the factors that are relevant to broker/execution venue selection:</p> <ol style="list-style-type: none"> 1. The main execution factor we consider is execution price; 2. The secondary execution factors we take into account when assessing the quality of execution are liquidity, costs, speed and likelihood of execution, size of the order and settlement. <p>In the assessment and selection of execution venues and brokers where we believe we can consistently obtain best execution in debt instruments for our clients, we consider qualitative and quantitative factors, such as market access and liquidity, market knowledge and coverage, reliable quoting, market price transparency, order handling process, speed of response and execution, trading costs.</p> <p>To ensure that we are consistently able to deliver best execution to our clients, we monitor on an ongoing trade by trade basis the quality of execution.</p>
Description of close links	BluOr Bank AS is not affiliated with any execution venue/broker used to execute client orders.
Description of specific arrangements	In this instrument class, normally trading is done on a principal basis with the broker or directly through trading venue so it should be expected that no commissions would be paid on these trades. BluOr Bank AS has neither given nor received any discounts, rebates or non-monetary benefits to or from these execution venues/brokers during the reporting period.
Explanation of factors that led to change	BluOr Bank AS monitor and appraise the execution brokers/venues in detail throughout the year. During the year we have determined the brokers are suitable counterparties to facilitate execution and update the list of brokers. BluOr Bank AS is the member of NASDAQ Riga and NASDAQ Vilnius stock exchanges.
Explanation of differences according to client categorisation	In this instrument class, there has been no client differentiation with respect to the execution of client orders. BluOr Bank AS take into account specific client instruction with respect to order execution. BluOr Bank AS has offered the same arrangements to all clients with respect to orders in this instrument class during the reporting period.
Explanation of other criteria precedence	In this instrument class, no criteria were given precedence other than as specified above (see 'Explanation of execution factors'), to deliver the best possible result in terms of the total consideration to the client, during the reporting period.
Explanation of data or tools usage	In this instrument class, BluOr Bank AS used publicly available market data to compare and to monitor the quality of execution achieved by third party brokers, during the reporting period.

BluOr Bank AS determines which broker to use at the point of execution based on their judgment as to which broker will be able to execute the trade most effectively, and in accordance with Best Execution, taking into account these specific execution factors.</p>
Description of close links	BluOr Bank AS is not affiliated with any execution venue/broker used to execute client orders.
Description of specific arrangements	In this instrument class, the only payment arrangements between BluOr Bank AS and brokers have been those covering fee payments made by BluOr Bank AS to the brokers for brokerage trades transacted on behalf of BluOr Bank AS's clients. BluOr Bank AS has neither given nor received any discounts, rebates or non-monetary benefits to or from these execution venues/brokers during the reporting period.
Explanation of factors that led to change	In this instrument class, BluOr Bank AS has only traded client transactions on an agency basis with external brokers. There have been no material changes to trading venues or execution counterparties listed in the Order Execution Policy throughout 2022.
Explanation of differences according to client categorisation	In this instrument class, there has been no client differentiation with respect to the routing of client orders to third party brokers. BluOr Bank AS has offered the same arrangements to all clients with respect to orders during the reporting period.
Explanation of other criteria precedence	In this instrument class, no criteria were given precedence other than as specified above (see 'Explanation of execution factors'), to deliver the best possible result in terms of the total consideration to the client, during the reporting period.
Explanation of data or tools usage	In this instrument class, BluOr Bank AS used publicly available market data to compare and to monitor the quality of execution achieved by third party brokers, during the reporting period.

MAREX FINANCIAL - 5493003EETVWYSIJ5A20	6.35%	2.18%	100.00%	0.00%	0.00%

Class of instrument	Other derivative - Futures and Options Admitted to trading on a trading venue
MiFID II Top 5 Venue Reporting Commentary	The Markets in Financial Instruments Directive - MiFID II mandates that investment firms, as part of their best execution obligations, report their top five venues for all trading on behalf of clients. Firms are required to make an annual public disclosure detailing these order routing practices for retail and professional clients across all asset classes.
Explanation of execution factors	<p>Over the course of the reporting period, in this instrument class BluOr Bank AS has only undertaken client orders on an agency basis with third party brokers. This business has been conducted via third party brokers, who specialized in exchange-traded derivatives trading. BluOr Bank AS front office staff have used these brokers to direct client orders to the appropriate broker and markets, to achieve the best possible outcome for each transaction.</p> <p>The following relative importance has been given to the factors that are relevant to broker selection:</p> <ol style="list-style-type: none"> 1. Geographic expertise, market coverage, trading solution; 2. Other factors – including, but not limited to the speed of execution, the cost of execution, the ability to handle certain order sizes and the specific nature of the order. <p>As the trades in this instrument class were all executed by third party brokers, except trades on trading venues, where BluOr Bank AS is the direct member, the specific factors affecting execution, eg price, cost, speed, were under the control of the brokers and not under BluOr Bank AS's immediate influence. BluOr Bank AS determines which broker to use at the point of execution based on their judgment as to which broker will be able to execute the trade most effectively, and in accordance with Best Execution, taking into account these specific execution factors.</p>
